Learn High Dynamic Range (HDR) photography in this two-hour workshop offered by Paul deBerjeois. Using your point-and-shoot or DSLR camera and tripod, Paul will show you how to interpret the light levels in a scene, bracket, expose and post-process your images using the latest HDR software. Bring your laptop if you have one – Paul provides the software. Otherwise, Paul will show you how to process the images on computers provided at the workshop.

Photography Hike – Ridge Trail

Paul deBerjeois
Red Rocks Room 9 am
Monday June 13

Monday July 18
Monday August 15

Paul deBerjeois hosts this morning hike with his expert instruction about scenic photography at the Garden. Dress for the weather; wear sturdy shoes, bring sunscreen, water, hat and jacket – prepare to explore off-road on a 2 mile hike. Any ‘camera’ from cell phone to DSLR, tripod and polarizing filter allowed via this great experience for beginner to advanced photography fan.
